

Pushkar Gupta

B.E. Computer Science Engineering · Chandigarh University · Expected 2029

Ludhiana, Punjab, India | pushkar4335g@gmail.com | github.com/devwithpushkar | linkedin.com/in/pushkargupta-

PROFILE

Computer Science Engineering student interested in AI, software development, intelligent systems, infrastructure, and practical engineering. Builds projects spanning LLM-based systems and AI agents, full-stack web applications, and automation — with a growing focus on how systems work down to the instruction level.

EDUCATION

Chandigarh University <i>B.E. Computer Science Engineering</i> Sacred Heart Convent School, Sector-39, Ludhiana <i>Class XII — 95% · Class X — 94%</i>	Expected 2029
---	---------------

TECHNICAL SKILLS

Programming	C++, Python, JavaScript, TypeScript, Java
AI / ML	LLMs, AI Agents, RAG, Prompt Engineering
Web Development	React, Vite, FastAPI, REST APIs
Databases	SQL, PostgreSQL, SQLite, Supabase
Infrastructure	Docker, Git, GitHub, Linux, WSL
Deployment	Render

PROJECTS

Knull <i>AI-powered autonomous security assessment platform concept</i> Explores autonomous security-assessment workflows built on AI agents, orchestration, and RAG.	Under development
Project Hermes <i>Configurable business operating platform</i> Digitizes business operations: workflow automation, configurable roles and permissions, multi-location readiness, industry-specific onboarding, and decision support.	Project work
FreeKick <i>Football analytics application</i> Interactive football analytics and visualization. Built with React, JavaScript, Node.js, Python, Supabase; deployed on Render.	Project work
COA Lab — Student Portfolio & Toolkit <i>This portfolio site + interactive Computer Organization & Architecture tools</i> React + Vite + Tailwind frontend with a FastAPI + SQLite backend; includes an instruction-set addressing generator (3/2/1/0-address) and an arbitrary-base number system converter.	Academic project

EXPERIENCE

CodeAlpha <i>AI Engineering Intern (upcoming)</i> Accepted an offer for an AI Engineering internship; joining is upcoming.	Offer Accepted
--	----------------

CERTIFICATIONS

- Microsoft AI-900 — Microsoft Azure AI Fundamentals
- Microsoft AZ-900 — Microsoft Azure Fundamentals
- Programming Foundations with JavaScript, HTML, and CSS — Coursera
- Foundations of Project Management — Coursera

COMPETITIONS & HACKATHONS

ByteBuild 1.0 — ByteXL <i>24-hour hackathon · Participation certificate</i>	Final 10
iDEA 2.0 <i>Competition participation</i>	Participated
